

TSP-WTDUAL is a smart touch color screen thermostat that can be controlled simultaneously or separately with electric floor heating and heated towel rail. The heated towel rail can be set to work in different periods, and can also be opened or closed at any time according to user needs, and supports APP control. In addition, the thermostat supports horizontal and vertical screen switching to meet your different installation requirements.

 **Brightness adjustable.**

 **Multiple sensor type compatible**

 **Multilingual switching
English/Chinese/Francais**

 **Horizontal and vertical
screen**

 **Room/Floor sensor
selection**
